**Attachments:** NUSAD\_Program.pdf

Dear colleague;

Thank you for registering for the Neutron Unbound Systems Around the Dripline workshop to be held **July 13 - 14** starting at **7:00 AM EDT** each day. The final program is attached to this email. The talks will be delivered via a Zoom webinar, and a separate Zoom meeting will be open throughout the workshop for "hallway discussions." The program also includes the Zoom connection information. We recommend referring to the PDF as the Indico website can be slow to respond when many people are trying to access it.

We look forward to seeing you July 13 - 14.  
The NUSAD organizing committee
