

A Guide To Using MSU's Wireless Network At FRIB

The wireless access at FRIB is provided by Michigan State University. There are two separate wireless networks to choose from: *MSUNet Wireless Guest* and *MSUNet Wireless*.

Guests who do not have an MSU NetID – select *MSUNet Wireless Guest*

- Make sure your computer's wireless internet is turned on.
- From your computer's wireless connection manager, select *MSUNet Wireless Guest* as your network. Once it has connected, open your web browser.
- The web browser should automatically display a page from MSU asking you to agree to the terms of use. Select the "I Agree" button. You should now be connected.
- *Note:* Guest Wireless has slower download speeds

MSU staff/students who have an MSU NetID - select *MSUNet Wireless*

- Make sure your computer's wireless internet is turned on.
- From your computer's wireless connection manager, select *MSUNet Wireless* as your network. Once it has connected, open your web browser.
- The web browser should automatically display a page from MSU prompting you to enter your NetID and password. Fill in those fields and select the continue button. You should now be connected.
- *Note:* A MSU NetID is the first part of your MSU Email Address
