Nuclear Astrophysics Working Group Session
Low Energy Community Meeting 2023
Thursday August 10, 2023 8:30 – 10:00

Time	Title	Speaker	Institution
8:30	Welcome		
8:35	SECAR update	Fernando Montes	MSU/FRIB
8:42	Opportunities for nuclear astrophysics at the High Rigidity Spectrometer	Fernando Montes	MSU/FRIB
8:49	ATLAS/CARIBU/N=126 capabilities	Jason Clark	ANL
8:56	Updates on LENZ & DICER for directly measuring neutron-induced reactions on radionuclides for astrophysical implications	Hye Young Lee	LANL
9:03	Nuclear Astrophysics program at TUNL/LENA	Richard Longland	TUNL
9:10	Precision measurements for big bang nucleosynthesis at FSU	Ingo Wiedenhöver	FSU
9:17	New capabilities at the Notre Dame Nuclear Science Lab	Dan Bardayan	Notre Dame
9:24	CASPAR recommissioning and upcoming experimental planning	Dan Robertson	Notre Dame
9:31	Update on CeNAM/IReNA	Hendrik Schatz	MSU/FRIB
9:35	AAAC Task Force on Laboratory Astrophysics	Hendrik Schatz	MSU/FRIB
9:40	General Discussion
