

You're Invited: Early-Career Workshop @ The Low-Energy Community Meeting!

Join us on **Wednesday, August 13th from 1 – 4pm** for a two-part workshop designed specifically for early-career researchers and students!

1-2:30 pm: Unlock the Power of Science Storytelling: A Workshop on Writing for Lay Audiences

This workshop, led by Dr. Barbara Gastel (TAMU), will equip you with the skills and confidence to write about low-energy physics and other scientific topics in a clear and engaging way for general audiences. Through a mix of presentation, discussion, and hands-on exercises you will explore the importance of scientific communication, guidelines for effective writing, and strategies for collaborating with science writers. By the end of the workshop, you'll have a toolkit for crafting compelling stories about science!

2:45 – 4 pm: Reflections on Early-Career Experiences in Nuclear Science: A Panel Discussion Unlocking Insights from Mid-Career Researchers

Join us for an engaging panel discussion featuring mid-career nuclear science researchers who will share their experiences successes, and lessons learned from their early careers. Would they have done anything differently? Our panelists feature Dr. Kay Kolos (LLNL), Dr. Cody Folden III (TAMU) and Dr. Philip Adsley (TAMU). This event is perfect for early-career researchers and students looking for guidance and inspiration.
